Buganda Kingdom is the largest traditional Kingdom in present day Uganda, comprising of Uganda’s entire Central region including the capital City Kampala with the population of about 10 million people.

The Kingdom’s strategic central location is a home of a hive of malleable enterprises, aiding a strong commanding investment spring board.

Why Buganda?
» 70% of business sales or goods and services take place within a radius of 50-80kms from which is all Buganda
» The passion, love and loyalty of the people of Buganda for their King and Kingdom are in their DNA. You will have guaranteed access to this segment of the market.
» The current Kingdom administration is young, dynamic, professional, and supportive towards investments.
» Buganda Kingdom has a lot of land constituted with water, forests and special stones among others

» Some pieces of land are in the capital city and urban centers (very prime for high end developments); while the rural areas have big chunks of fertile land for commercial farming.

In this edition of the Kingdom’s Investment profile, we are proud to have partnered with Uganda Investment Authority, to share with you our priority sectors and various investment opportunities showcased in the various Kingdom companies under Agriculture, Real Estate, Media, Telecom and Education sectors.

With the existence of sound macroeconomic policies and an attractive investment climate, one is assured of maximising a good return on investment.

We welcome you to consider doing business with us.

Existing old buildings located on Samaliya Estates

iii) Accessibility
Samaliya Estate is approx. 140 kms from Kampala City.

iv). Proposed Investment Options
The old buildings on this estate can be renovated to serve as Ware houses for manufactured goods.

It is arable land for commercial agriculture because the loam soils favour the growth of cash crops i.e. Tea and Coffee since they are grown on the said land and, other seasonal crops like maize, Banana, etc.

3. Land at Nyanama Estate, Kyaggwe Block 476 Plot 6- 122 Acres.

i) Land Size; It is approximately 122 Acres

ii) Land Description; This land is on a hill and part of it is non-arable since it contains a rock. The biggest part of it is arable land characterized by a thick forest. The land touches Lake Victoria.

Residents around this estate are poor peasants who normally grow food crops for home consumption.

Approx. 40 acres of land is occupied by illegal tenants. The photograph below shows the nature of this land.
iii) **Accessibility**

This land is located in Buikwe District, Ngogwe Sub-County at Buweera-Butale village, approximately 70 kilometres (40 miles), by road, east of Kampala. This location lies approximately 12 kilometres (7.5 mi), by road, southeast of Lugazi, the nearest large town. Buikwe is a small town in south-eastern Central Region. It is the administrative capital of Buikwe District and is the location of the district headquarters. It is the home base of Nalubaale Football Club, one of the clubs in the Ugandan Premier Football League.

iv) **Proposed Investment options**

The arable land can be used for commercial agricultural investments i.e. investing in eucalyptus trees or pine trees. The rock on this Estate can be used for further investments depending on the advice of the Geologist. Developing Leisure gardens and hotel are also other investment options on this land.
4. Land at Kaduuba, Buluuli Block 13 Plot 2

i) Land Size
   It is approx. 644 Acres

ii) Land Description
   The sloping land contains good loam soils and a wetland. It also contains shrubs and part of it is occupied by illegal tenants who grow food crops for home consumption. This land touches Lake Kyoga.

Arable Land for commercial Agriculture

The land touches Lake Kyoga
i) Accessibility
This land is located in Nakasongola District, Lwampanga Sub-County at Kadooba village in the Central Region of Uganda. Nakasongola town is the site of the district headquarters. Kadooba, Nakasongola is approximately 150 kilometres (90 miles) north of Kampala, on an all-weather tarmac highway between Kampala and Masindi.

Proposed Investment Options
Commercial Agriculture is the best investment option on this estate i.e. growing seasonal crops like maize or planting trees like eucalyptus for future investments.

1. Mulago Estate, Kibuga Block 29
   i) Land size: The land is approx. 4 acres
   ii) Land Description
   The slopping land has a slight valley at the lower boundary, heavily squatted with slum developments, characterized by permanent houses. Approximately 2 acres of this land was leased to sitting tenants. All tenants on this Estate were registered by Kabaka’s Estates Office including approximate sizes of their plots.

2. Bunamwaya Estate, Kyadondo Block 265 Plots 5512 & 5513
   i) Land size: The land is approx.30 Acres
   ii) Land Description
   This land is hilly, heavily squatted with slum developments, characterized by permanent houses. Approximately 5 acres of this land were leased to sitting tenants. Many tenants on this Estate were registered by Kabaka’s Estates Office.
   iii) Accessibility
   Present day Slum developments on Mulago estate

   This Land is situated within the central business district of Kampala off Mawanda Road, at Mulago Nsooba. At the lower end of the hill about 2 kilometres (1.2 miles) from hospital complex, are the Uganda Museum and headquarters of the Uganda Wildlife Authority at Kamwookya. The British High Commission office, and the High Commission office of the Republic of Rwanda are both located in neighboring Kamwookya.
   iv) Proposed Investment Options
   The total 4 acres of land is sold outright (mailo) to interested Investors who wish to develop the land for commercial investments i.e. constructing modern Commercial Residential homes.
Bunamwaya - Lubowa is bordered by Kabowa and Kitebi to the north, Najjanankumbi and Makindye to the northeast, Munyonyo to the east, Kaazi-Busabala to the southeast, Kajjansi to the south, Nakigalala to the west, and Buddo to the west. It is located approximately 11.5 kilometres (7.1 mi) by road south of the Kampala central business district, on the Kampala-Entebbe Road.

iv) Investment Options
The total 30 acres of land can be sold outright (mailo) to interested Investors who can develop the land for commercial investments for example constructing modern Commercial Residential Homes.

Plot No. : 85
Block No. : 345 - 346
Location : At Kasenge
District : Wakiso

(a) BUNJAZI ISLAND
The name “Bunjazi”, can be translated as “rock” in its different meanings i.e. strong as rock- rocky – firm as a rock – impenetrable and strong-hold.

Bunjanzi is one of the 83 individual Islands which form the Ssese Archipelago in Lake Victoria. The archipelago has up to now been a relatively well kept secret as far as tourism is concerned and was fortunate enough, due to its isolation to have escaped the effects of civil wars on the main land.

Bujanzi Island has 320acres that stretches 5kms long and is boarded to the East by Boyonge, Bubeke and Bukasa Island and to the west by Buyovu Island. A distance of about 3 to 5kms separate Bunjanzi Island from the other Islands. The Island is isolated in nature with fresh water springs, exotic flora and fauna and almost untouched wild environment. This land is suitable for a modern tourist resort.
(b) BUNYAMA ISLAND
Bunyama Island has got 384 acres and it’s located in Kalangala District, Central Region Uganda. It is the second-largest island with a freshwater lake in the world. Bunyama islands is also a home to a variety of animals including primates, which are not easily accessible on the mainland. This has led to the evolution of a nascent but growing tourism industry on the islands. Infrastructure is still rudimentary but is slowly improving.

INVESTMENT IN REAL ESTATE MANAGEMENT

We offer professional administration of Residential, Commercial, both Retail and Industrial Real Estate management while ensuring a maximum value for money.

Buganda Kingdom established a limited liability company to engage in Real Estate management and Investment on its behalf. The company is registered under the Laws of Uganda and is solely responsible for managing the Kingdom’s large as well as widespread property portfolio (Letting and management) and engaging in real estate development on the Kingdom’s behalf.

The company also provides construction management services where it ensures on time delivery of a construction project while assuring quality and mitigating cost.

NIL on behalf of the Kingdom seeks to transform the skyline of Katwe, a Kampala suburb located 3 kilometers (2 minutes) drive from the Central Business District area as a major contribution to the transformation of the area with modern buildings at one of the main entry points to the City from the southern side up to the International Airport of this Country.

It shall erect a mixed commercial and Residential building for which it seeks anchor Investors to take advantage of the excellent location of the proposed Project Site which is out of the busy traffic jam City Centre but just 3km on the fringes of the Capital City. Principally the project will serve to create opportunities for the middle and small business men and women (traders), especially those operating within the area to secure their own business premises under the "Condominium Property Planning" principles. This would create a sense of ownership and security of Tenure.

Who We Are

Buganda Kingdom established a limited liability company to Namulondo Investments Limited to engage in Real Estate management and Investment on its behalf. The company is registered under the Laws of Uganda and is solely responsible for managing the Kingdoms’ large as well as widespread property portfolio (Letting and management) and engaging in real estate development on the kingdoms behalf.

The company also provides construction management services where it ensures on time delivery of a construction project while assuring quality and mitigating cost.

Letting and Advice

Depending on the ongoing tenancy period, we do minor improvements, promote property to potential clients and prepare tenancy agreements.

Construction Management

NIL offers construction management services that shall include but not limited to; Tendering, Contracting, Mobilizing and general supervision.

Facilities Management

We provide a thorough facilities management of property and ensure assets give a return for investment.
Provisional Project Cost Estimates

Provisional Project Cost Estimates of the proposed building have been worked out based on the built-up area of five (5) accommodation schedules, using a unit cost rate estimate for average quality building construction, specifications for internal and external finishing without compromising on the structural elements to ensure a secure and safe building structure.

The building is designed in such a way that it can be constructed in Phases and the first Phase having the Small Medium Condominium Commercial Block, the whole of the basement parking levels and all the Commercial Floors up to the 2nd level of the Kezimbira Block plus the Central Core Business Hub. That Phase would cost approx. 48.0B/=, equivalent to about 14.1MUSS excluding VAT. The cost of Phase II would be determined based on the period/timeframe when it would be realized. Buganda Kingdom thus calls upon interested companies to partner with it in the delivery of this project.
INVESTMENT OPPORTUNITIES
IN CORPORATE PARTNERSHIP

Key Focus Areas
i. Annual Development Fund
ii. Sponsorships

Majestic Brands Limited [MBL] is a limited liability company that was established by the Buganda Kingdom to undertake innovative and competitive activities to harness Buganda as a Brand for the benefit of the people of Buganda.

MBL aims at re-examining and re-designing systems, services and products that the Kingdom has today by reworking both the boundaries of complex challenges and coming up with ways to deliver long term solutions.

MBL is therefore mandated by the Buganda Kingdom to improve existing products and services as well as innovate and design new ones that will generate revenues for the running of the Kingdom and employment of its people.

The Annual Donation Fund
This voluntary program handles Buganda Kingdom donations through the sell of Buganda certificates, betrothal letters, car and motorcycle stickers and Cabinet Charts. This program has been running since 2001 in Buganda, outside Buganda and in the Diaspora. Its main objective is to support the Health Camps, Kabaka Education Fund and Kingdom development activities.

Sponsorships and Partnerships
Buganda Kingdom plans and organizes over 20 social events annually. These cut across cultural and social matters and attract thousands of people from in and out of Buganda. Corporate sponsorship and partnerships are important sources of funding and the contributions are characterized as strategic investments, with the intent of generating returns that will eventually improve profits. Securing corporate support requires a keen understanding of how projects will appeal to the corporation’s strategic interests.

Airtel is a platinum sponsor for Kabaka Run
Rwenzori sponsors Kabaka Birthday celebrations

There also enormous opportunities for mutually benefiting partnerships within the Kingdom in contract manufacturing, to produce and sell kingdom endorsed products under a Royal flagship brand.

In its ninth year of operation, Muteesa I Royal University (MRU) stands out as one of Uganda’s fastest growing private Universities in Uganda. MRU is licensed by the Uganda National Council for Higher Education to support the growth and development of higher education and transformation of society. MRU has got 2 campuses in Masaka and Kampala with an enrolment of 2,700 students currently running with four (4) faculties i.e. Faculty of Science and Technology, Faculty of Education, Faculty of Business and Management and Faculty of Social, Cultural and Development Studies. As a classical university transforming into a developmental university, MRU aims to develop programmes, conduct research and offer services that are responsive to community needs. The University’s unique niche lies in fostering innovations, creativity, embracing technology and developing people to meet the challenges of tomorrow.

We develop long-term productive partnerships and collaborations that augment the local and international standing of the University. Below are some of the areas MRU management suggests for partnership and investment opportunities:

1. To establish a teaching hospital that will help the university to teach health related courses including conducting research on herbal medicines.
2. Revamp and equip the teaching facilities for the hotel and hospitality students.
3. Put in place innovation hubs that will be supported by a research grant to facilitate innovations among our students, entrepreneurs and the community.
4. Collaborations with Agricultural Training Centers’ to run skill based agricultural disciplines at MRU.
5. Equipping the workshops and building the capacity of MRU staff to manage them.
6. Engaging in communal activities to ensure contribution, to social responsibility and sustainability.
7. Improving and or setting up new sports complex for indoor and outdoor sports activities. These would aid MRU in identifying and promoting talents through sports activities.
8. Set up an MRU Radio Station to support the Mass Communication department in teaching, resource mobilization as well as having hands on experience for the students.
9. Advancement in technological innovation to include the establishment of a ‘Virtual Reality Laboratory’ which would in the long-run support distance learning among others.
10. Promoting the exchange programmes for staff and students.

- Traditional food court, “Olujuliro”.
- Cultural Museum – Open living museum
Royal Mile

Development accomplished in partnership with KCCA

Cultural Significance:
The historical lane commonly known as Kabakaanjagala Road is a magnificent stretch from the official palace of Buganda’s king (the Kabaka) to the Kingdom’s administrative centre at Bulange.

Opportunity:
• Development of sculptures along the Royal mile representing totems in the specific Clan (Bika) plots, which the basis of storytelling and clan heritage is.

Kabaka’s Lake Redevelopment Project

Cultural Significance:
Kabaka’s lake, was hand dug during the reign of Ssekabaka Mwanga II (1884 – 1888). To date it is one of the only two excavated lakes in East Africa and one of the biggest of this kind in Africa. The lake would bring his water sport close to his palace in Mengo and also serve as an escape waterway in the event of armed conflict with the British.

OPPORTUNITIES IN AGRICULTURE

In the short and medium term, Buganda intends to continue focusing its efforts on the traditional cash crops of Coffee and as well as Cassava, Bananas and Sweet Potato, as the main focal crops to improve household incomes. The non-traditional horticultural crops & plants, including various Fruits & Vegetables are also important for income generation.

Why invest in Agriculture in Buganda

Buganda is strategically stationed in the commercial heart of Uganda and therefore provides a unique opportunity as a market for fresh produce. The following are however critical:

(i) The accelerating growth and the rapid urbanization in Buganda;
(ii) The end of the secular price decline for agricultural commodities that will make agriculture more profitable in the future;
(iii) The greater availability of improved technological opportunities that arise from the bio-technology revolution;
(iv) The availability of food processing infrastructure in Buganda.

The following are however the specific advantages per crop

a. Bananas
   - Opportunities in clean seed production, Value addition and pesticides
b. Coffee
   - Opportunities in seed production, coffee washing facilities for quality beans and roasting.
c. Cassava
   - Opportunities in clean seed production, extensive production of Cassava, processing into high quality flour, because of the potential to be used in the bakery and beer industry.
d. Sweet Potato
   - Opportunities in clean seed production, production and potato tubers.
e. Fish
   - Very high potential for fish farming because of available water bodies and swamps both for cage fishing and fish ponds. Commercial production of fish fingerings, and investment in fish feed production

The organization has access to land (approximately 50 acres) onto which new technologies can be demonstrated. We are in the process of formulating our master plan for the farm. This is another opportunity for you to work with us in developing this land into a center of excellence for agricultural technology transfer.

In summary, the success of research and advisory services in raising agricultural productivity in Buganda (4 National research Institutes are located in Buganda) depends on a concerted effort of not only farmers, but also the business community dealing in agri-business enterprises. When you work with BUCADEF you help in reducing smallholder farmer’s risks (and thus increasing commercialization)

Our technical team is well versed with the traditions of the farming communities in Buganda and are therefore ready to work with you so as to achieve your objectives.

Buganda Cultural and development foundation BUCADEF is the socio-economic development agency for the Kingdom of Buganda.

Working with the local government structure that goes up to the village, we mobilize farming communities and work with them to respond to the challenges to agricultural productivity. This ultimately helps them to increase the productivity of their small holder farms for increased yields and incomes.

Background

Agriculture in Buganda accounts for a third of Uganda’s GDP; constitutes the main economic activity for the rural households (especially women) and remains their main source of income. Today, the agricultural population is estimated to be a little less than 80% of the total population for Buganda. The sector meets 90% of the national food needs and generates more than 50% of the country’s export revenues.
