Other	128
Developed new supply chains due to restrictions	107
Stocked up raw materials	92

GREATEST CONCERNS

PROPOSED INTERVENTIONS

As shown in the Word cloud above, the majority of recommended interventions focused on Tax, Loans, Affordable credit facilities, cost of utilities and the challenges the lock-down has had on the supply chain, workforce and business operating hours.

TAXES

The majority of recommendations centered around tax reduction, waivers, holidays and exemptions.

LOANS & FINANCING

Access to affordable credit, low interest loans, debt relief, grants and loan rescheduling were proposed

RENT & UTILITIES

Respondents also requested for postponement of rent payments and subsidization of the cost of utilities.
